

Me & My Special Grown-Up

We all want our children to feel happy, healthy and loved!

Whom is Me and My Special Grown Up Designed For?

Our class is designed for mobile children 12-24 months and their adult partners. As children experience new things through their senses, they can look to the people they trust to make decisions about their surroundings.

What Will We Do In Class?

In our group we engage tiny tots and their grown-ups in sensory experiences together to facilitate trust. The classroom is set up so that young children can be active participants in their discoveries with water, textures, mirrors, shakers, grabbing, reaching, kicking and dumping. We will learn new songs and investigate physical principles. Your children will love crawling and climbing around in our tunnels and ball pool.

Whom Should Children Come To Class With?

Children are invited to come with parents, caregivers, grandparents or another loving grown-up. You have an indoor destination, and a community of adults with whom to share your experiences. In addition, adults have the opportunity to observe their child during play with a professional's insight.

About the Class

- We do messy work so please dress your child for play and bring a change of clothes.
- We have snack during class, so if your child has dietary restrictions, please let us know.
- Spots will be secured on a first come, first serve basis.
- We will use the rooftop playground and gym on occasion.
- Class is for children 12-24 months old.
