

# Welcome to the GHP Measuring System!

## Measuring a Piece

To get started, you will log in on the system homepage (<https://potteryapp.greenwichhouse.org>). You will use the email address you used to create your Sawyer account for registration.

Please see a liaison to reset your password.

The screenshot shows the login page for the Greenwich House Pottery Measuring App. At the top, there is a dark purple navigation bar with the word "MENU" on the left, "LOG IN" in the center, and "REGISTER" on the right. To the right of the "REGISTER" text is a small logo of a classical building with columns and an archway, with the text "Greenwich House" underneath it. Below the navigation bar, the main content area is white and contains the following text: "Welcome to the Greenwich House Pottery Measuring App" in bold, followed by "Please login or register with the email you used to register for class." in bold. Below this text are two input fields: "Email Address" and "Password:", each followed by a light gray rectangular input box. Below the "Password:" field is a "login" button. At the bottom of the form area, there is a link: "Forgot your password? See a staff member for assistance."

Once logged in, you will see the following menu, which is also viewable in the left-handed dropdown menu. On the main menu, you can also set your default location to the specific studio you are enrolled at.

Greenwich House

- To measure a new piece, click on that button. You will be directed to a new page, and prompted to select your studio location, enter the dimensions of your piece(s), the glaze temperature, and your course number.
- Your current balance (or balance due) will appear at the top of the page.
- Prices will be calculated automatically based on the measurements entered.
- If you opt for single-firings, you can select only a bisque firing or glaze temperature. The price calculation will adjust accordingly.
- You can also submit optional notes-to-self.

### Measure A New Piece

Firing Account Balance: \$10.00

Your account balance is getting low.  
[Please consider adding funds here](#)

Piece Location: Chelsea

Length (Min 0.5"):

Width (Min 0.5"):

Height (Min 3"):

Number Of Handles: 0

Bisque Temp: Δ 06 (Cone 06)

Glaze Temp: Δ 6 (Cone 6)

Price: 0.0

Course Number: e.g. W7

Note (Optional): Chun blue splattered over Shino white on the outside, Chun blue on the inside

Submit

**\*\*If you make a mistake while measuring, please see a Liaison\*\***

From here, you can submit your piece.

Once a piece is measured, you will be prompted to print a receipt, which you will find in the glaze room. It can take up to a minute for the receipt to print, and it may print alongside other student receipts, so please make sure you're taking your own slips!

The printed receipts are the piece's ticket into each firing. You are responsible for keeping the second half of the receipt, which will be the ticket into the glaze firing (assuming you are paying for both firings at once).

If your balance due is in excess of \$100, you will not be able to measure new work until the balance is settled.

## Adding Firing Credit

To add funds, you can select “Add Firing Credit” from the menu. This will bring you to a page in which you can add your card information. We strongly prefer that you add credit in quantities of \$25 or more because of credit card fees, but we can accommodate other price variants. The selected amount will automatically be added to your log once the transaction is complete.

You can save the card information to your account, but do not save the card information to the iPad if it prompts you to do so.

The screenshot shows a mobile payment interface for Greenwich House Pottery. On the left, there is a cart item titled "Firing Credit" with a price of \$25.00. Below the price, it says "Add credit to your firing account balance" and "Qty 25" with a dropdown arrow. To the right of the item, it says "\$1.00 each". On the right side of the screen, there is a "Pay with card" section. It includes an "Email" field, a "Card information" section with a card number field (1234 1234 1234 1234), a "MM / YY" field, a "CVC" field, a "Cardholder name" field (Full name on card), a "Country or region" dropdown menu (United States), and a "ZIP" field. At the bottom of the "Pay with card" section is a blue "Pay" button.

Make sure to log out when you are done measuring!
